

Info «Learn how to access the job market»

You would like to work and do not know how to proceed:

- What are the requirements in the Swiss working environment?
- What are the possibilities and the ways to enter the job market?
- Where can I get support?

We will visit the Careers Centre in Zurich, where you will learn more about the Swiss education system and receive information about career entry and possible fields of work. Ask your individual questions regarding training and further education opportunities, search for employment as well as recognition of diplomas.

The event will take place in German. There will be a translation service into Albanian, Arabic, English, French, Italian, Spanish and Tigrinya.
